Unification Of Army And Navy Will Come Soon

Only Signature Of President Truman To Measure Is Now Awaited

BILL IS PASSED BY CONGRESS FINALLY (BULLETIN)

WASHINGTON, July 25.—(INS)—Congress sent to the White House today legislation merging the Army and Navy into a single department of national defense and creating a separate air force.

Final congressional action came when the House approved the compromise unification bill.

President Truman's approval is certain as he has recommended the merger many times.

Final action was by voice vote after 15 minutes of discussion during which Rep. Hoffman (R) Mich., chairman of the House conferees and co-sponsor of the legislation, again criticized certain provisions, but termed the final bill "the lesser of two evils."

Need Unification

Hoffman said:

"There isn't any question but that we need unification...Inexcusable confusion and waste existed during the war."

Hoffman complained, however, that certain military leaders "want the power to plan our domestic and foreign policy." He expressed fears that the measure as now drawn might permit them to inject themselves more forcibly in what are normally exclusively civilian affairs.

The legislation brings to an end more than 150 years of divided military control in the United States.

Henceforth, a secretary of defense will head the entire military organization. The president is expected to name Secretary of the Navy Forrestal to the new post.

Unification will become effective within 60 days after the president signs the legislation or the day after the new secretary takes office, whichever is earlier. Some other provisions become effective immediately.

Pa Newc Observes

While temperatures this week have hit all time lows for this season of the year, it is interesting to note that one year ago, yesterday, one of the hottest days of last summer was recorded, the mercury hitting 94 in the shade.

Mrs. F. F. Rice, of Martin street, reports to Pa Newc that her neighbor, Mrs. Hattie McConahy, also of Martin street, has a hollyhock in her flower garden which stands 9 feet and 11 inches.

It seems that some people are too lazy to have a garden, but are not too lazy to steal from some other garden. A North Hill woman reports that lettuce was taken from her back yard garden.

Mrs. Harry Gibson, R. D. 1, Gardner, reports that she has quite a tall hollyhock plant growing in her yard. The plant she reports is ten feet tall and is still growing strong.

Corn in the Pulaski district is in varying stages of growth. One field out there is waist high, dark green and flourishing. Another field is just breaking ground for a race against the fall frosts.

While the hollyhock parade is going strong, Pa Newc wonders who will be the first to have roasting ears from a local garden this summer. Usually someone reports corn on the cob about this time of the year.

Tent Hall district in Mahoning township seems to have been hit hard by Tuesday's storm. At 4 o'clock in the afternoon ice was gathered up near a barn in that section. The storm damaged a strip

Mercy Killing Effort Only Half Successful

GRANVILLE, Vt., July 25.—(INS)—A 28-year-old crippled and mentally ill woman was reported recovering today from carbon monoxide poisoning, but her father, who had tried to kill them both, is dead.

The woman is Miss Florence Ingalls, a spastic invalid since birth and the intended mercy killing victim. Her father, Prof. James W. Ingalls of Norwich university, was found dead beneath the exhaust pipe of his car, which was parked in a gravel pit.

Police said he left a note pinned to a blanket under the body, which read:

"What Would You Do?
"What would you do if you had a crippled daughter who was hopelessly insane? God forgive me."

Another letter was found in Prof. Ingalls' pocket. It stated:

"Some people won't understand this."

State's Attorney John Conley said that Miss Ingalls had been a private patient at a Waterbury institution and that her father took her away Monday.

Authorities said Ingalls had tied his daughter to his waist with rope, weighted the automobile accelerator with a rock to keep the motor going, and lay with her on a blanket at the rear of the car. The fact that she wriggled her head to obtain fresh air kept her alive, although she was partly unconscious for two days until found.

Prof. Ingalls was graduated from

ELLWOOD CITY, July 25.—Using an unique method suggested by Roy Burns of Burnstown, E. C. Hoenstine and LeRoy Hoenstine of Wurtemburg volunteer fire department came upon the body of little Richard Hoak, aged 8 years, son of Mr. and Mrs. Elmer Hoak, in the Coopersburg creek just opposite the Pennsylvania Power company's bridge station below the Ewing Park bridge at 4 o'clock DST Thursday afternoon. He had been drowned, Deputy Coroner Charles E. Allen, who investigated, announced.

Burns stated that he had seen the Indians use this method in the vicinity of Kane, Pa., and the suggestion was followed, proving successful in this case. The idea given by Burns was to bake a loaf of bread, using no salt, and to cast it

House Committee Acts On Military Training Measure

WASHINGTON, July 25.—(INS)—The house armed services committee by unanimous vote today reported favorably legislation to establish compulsory military training in peacetime.

It was the first such action ever taken in congress.

Rep. Andrews (R) N. Y., committee chairman, announced, however, that no further action on the bill is expected at this session, since congress is slated to adjourn tomorrow. He added:

"The whole purpose of this action is to bring one bill on this subject before the whole American people."

The bill calls for six months of basic military training for all American youths aged 18 through 20.

The bill narrowly escaped death in the session when a count disclosed at the opening of the committee meeting that a quorum of the 33-member group was not present.

Disclose Roosevelt Ordered Financing Of Hughes Plants

WASHINGTON, July 25.—(INS)—The Senate War Investigating Committee has possession today of a secret memorandum which discloses that the late President Roosevelt personally ordered the reconstruction finance corporation to finance Howard Hughes, Hollywood movie producer, in his wartime aircraft ventures.

It is understood that the late President issued this order after Army Air Force authorities rejected the Hughes plans.

Authoritative sources also revealed that executives of the late President's estate have released most of the private FDR papers subpoenaed by the committee for the Hughes probe, which opens Monday.

The glamour-studded inquiry will include revelations of Hughes parties that included wine, women and song.

HUNT MISSING HEIRESS

HOLDERNESS, N. H., July 25.—(INS)—A spokesman for the family of missing Anne Straw, Manchester, N. H., heiress, admitted today the aid of state and government agencies has been sought in the search for the missing Smith college honor student.

This was taken to mean the FBI has been asked to assist in the baffling case. Edmund Higgins, 32, nephew of Anne's mother, declined, however, to identify the "government agencies".

Body Found In River May Be Man Wanted

BADEN, Pa., July 25.—(INS)—State police reported today that the body of a man dragged from the Monongahela river near Uniontown, may be that of the fugitive wanted in connection with the double murder at Mt. Gallitzin Academy.

Police said the description of the dead man tallied with that of John Givens, Academy employee who has been missing since the mutilated bodies of two of his fellow workers were discovered.

The FBI said the fingerprints of the man identified him as James Norman, alias Newman. Police said his record showed he had been in Long Island, N. Y., and several Pennsylvania towns.

Authorities from Mt. Gallitzin were en route to New Salem to identify the body.

The FBI entered the case after Givens was charged with interstate flight to avoid prosecution for murder.

Austria May Be Next Caught In East-West Battle

WASHINGTON, July 25.—(INS)—Diplomatic sources in Washington foresaw the possibility today that Austria might become the next European state to be caught in the tug-of-war for economic dominance between the east and west.

The interpretation was placed on reports from Vienna that the Soviet Union, at a moment when all Europe's cry is for coal, has offered the Austrian government 150,000 tons. This is in addition to regular deliveries from Poland to Austria.

The Soviet offer is regarded by diplomats in Washington as more a gesture than a contribution. It would contribute very little to Austria's coal needs even in the area occupied by the Soviet army.

FLOODS IN JAPAN

SENDAI, Japan, July 25.—(INS)—The U. S. eighth army announced today that 14 Japanese were reported dead in floods which followed heavy rains in northeastern Japan.

The storms and floods have closed all roads and railroads in the area, paralyzing allied and Japanese traffic. Six bridges have been washed away.

Congress Hopes To End Session On Saturday

Senate Ends All-Night Filibuster And House Halts Delaying Tactics

'MUST' LEGISLATION WILL BE COMPLETED

WASHINGTON, July 25.—(INS)—Republican leaders today abandoned their fight for a probe of Kansas City election fraud charges as the senate ended a hectic all-night filibuster and delaying tactics were dropped in the house.

The way thus was cleared for completion of pending "must" legislation in time for adjournment tomorrow.

Rep. Rayburn (D) Tex., house minority leader, ceased objections to unanimous consent requests after receiving assurance that GOP leaders would give up attempts to force a congressional investigation of Attorney General Clark's handling of the Kansas City case.

To Resume Drive

The senate recessed at 6:12 a. m. (EDT) until noon, when Democratic senators who used every parliamentary maneuver to thwart an inquiry into Attorney General Clark's handling of the vote fraud case agreed to a GOP proposal to resume the adjournment drive on "must" legislation.

At noon, the senate scheduled further action on the one billion 600 million dollar foreign relief appropriation bill.

Meanwhile, Sen. Kern (R) Mo., spearhead of the GOP group demanding an investigation of last summer's Kansas City primary election in which ex-Rep. Slaughter (D) Mo., was "purged" by President Truman's order, continued behind-scenes attempts to secure congressional action.

More Propane Gas Tanks Are Being Built

Construction is under way near Ellwood City on sixteen additional tanks for the storage of propane gas, Thomas J. Foley, New Castle manager of district No. 3, reported.

The group of sixteen tanks completed in December, 1946, were in use in February, 1947. Each tank is 9 feet high, 70 feet long, and has a capacity per tank of 30,000 gallons of propane gas. The gas is shipped from Texas by tank cars, and approximately 45 cars were required to carry the necessary amount to fill the 16 tanks.

Cement groundwork has been laid for the second group of sixteen tanks, and the work is expected to progress on them rapidly.

The stored propane gas is used to augment local supplies during the winter.

He added that the cleanup program was progressing satisfactorily and a majority of manufacturing plants hit by the 9.3 inches of rain had returned to normal operations.

Two Are Killed In Plane Crash

Man And Woman Die In Flaming Wreckage Of Plane At Gratz, Pa.

GRATZ, Pa., July 25.—(INS)—Two persons died today in the flaming wreckage of a private airplane near Gratz.

They were identified by Deputy Coroner S. E. Herold as David Savidge, 29, of Fountain R. D. 2, and Miss Mary Willier, 29, of Hegins.

Herold told him that an attendant had reported the craft apparently exploded in mid-air after taking off about 12:30 a. m. for what was described as a pleasure jaunt.

Savidge's fiancée, Miss Ruth Koppenhaver, of Valley View, saw the plane plunge to earth.

State police launched an immediate investigation. The landing field near Gratz was equipped for night operations.

Miss Willier served during the war as a Wave and was discharged after three years service.

Eight Months To Two Years Prison Terms Imposed

Defendants Allowed Out On Bail Pending Appeal Of Case To Higher Courts

TRIO CONVICTED THREE WEEKS AGO (BULLETIN)

WASHINGTON, July 25.—(INS)—Former Rep. Andrew J. May (D) Ky., and munitions makers Henry and Murray Garsson today were sentenced to eight months to two years in prison for wartime bribery and conspiracy to defraud the government.

Federal Judge Henry A. Schweinhaut was unwavering in a dramatic statement in which May, wartime chairman of the House military affairs committee, declared tearfully:

"Never Violated Law"

"I never violated the law in all my 72 years. Never in my years in Congress did I receive one dime directly or indirectly, for any service to anybody, including the Garssons."

May told the court he was a testifier and a Sunday school teacher. He cried brokenly:

"I had hoped in my old age to enjoy life and not be diseased and contaminated by dissipation."

May said he faced the bar of justice with a "clean, clear conscience."

The Kentuckian's attorney, Warren Magee, declared in an impassioned plea for mercy that May was penniless, that he had sold all his property and borrowed on his insurance policies to finance his defense.

The defendants were convicted on charges arising from the fabulous development of the Garssons' munition empire from a mere letterhead to a gigantic combine handling 78 million dollars in war contracts.

Judge Schweinhaut turned down the new trial motion. He also denied a defense request that the jury be called in and questioned as to whether members had disobeyed the court's direction that they avoid discussing the case and refrain from reading about it in the newspapers or listening to radio reports of the proceedings.

The three defendants were found guilty on July 8 on charges that May received \$53,000 in bribes from the Garssons for putting pressure on the war department in their behalf.

Second ward, Tuesday, all day.

Fourth ward, Wednesday, all day.

First ward, Friday, all day.

The bicyclists will take their "steads" to the fire station in the different wards.

The farmer smiles at the falling rain and thinks what a good it will do, and picnickers moan as they see the rain for the picnic they planned is through. And the golfer roars that it spoils his game, but the farmer keeps smiling on, he knows the rain will pay dividends when the golfing weather is gone. So take the weather for what it is, if it rains, it will go away, and the golfer can try for another low score, it's 80 today.

Second Ward Rush To Register Bicycles

Traffic was tied up on Park avenue Thursday and nobody could do much about it. "Bike" registration was being held at the Park Avenue Firehouse, and at 9 o'clock youngsters and bikes, five or six rows abreast were lined up for nearly half a block, waiting their turn, during the day.

Caroline Black, from the City building, and Policeman "Sack" Welsh were doing the registering, and Firemen Bill Samuels and Harold Blewitt were attempting to keep the youngsters in straight lines.

RECOVER BODY OF ELLWOOD BOY

(Continued from Page One)
into the water at the spot the body is presumed to have disappeared, then to follow its course down stream. Herb Donnelly of Mid. Route 7, Ellwood City, had the bread baked, and tossed it into the stream Thursday afternoon about 2:30 o'clock. The Hoenstine brothers in a boat followed the course of the bread down stream, and it finally settled in an eddy, just across the stream from the station. Scanning the water carefully, they saw the submerged body only a few feet away. It was towed to the opposite shore and removed.

The body was taken to the W. D. Porter funeral home on Fourth street, and burial will take place this afternoon at 2 o'clock at Locust Grove cemetery, with Rev. H. C. Jacobs of the First Methodist church in charge.

Last Seen Sunday
The boy was last seen Sunday afternoon at 1 o'clock and search was instituted late Sunday by the Ellwood City fire department rescue squad and the men from Wurttemberg. A section of wire fence used by the Ellwood firemen to create a barrier in the stream and prevent articles from floating past, was erected in the stream several hundred yards below where the boy was believed to have been drowned, and constant search was made since that time. It is believed the body just came to surface Thursday afternoon, as employees at the power plant did not notice it earlier in the day.

The lad was the son of Elmer Hoak of Gibsonia and Mrs. Irene Hoak of Burnstown. Besides his parents, he leaves his grandparents, Mr. and Mrs. John Baros; three sisters, Rose Ann, Delores and Nancy Lee Hoak, and two brothers, Leroy and Hugh E. Hoak.

Washington Calling

By Marquis Childs

Current Red Scare Kind Of Hysteria

WASHINGTON, July 25.—The current Red scare is being whipped up into a kind of typhoon of hysteria. As it whirls, it acquires new momentum, feeding on the perverted rumors of the frightened, the frustrated and the insecure.

This is a strange way for the most powerful nation in the world to behave. Quite apart from the damage it may do to our own freedoms, it is in itself a threat to security.

Need Objective Information
To make proper judgments in world issues, we must have objective information. We must weigh events calmly and judiciously. That cannot be done in an atmosphere of hysteria.

Here are two examples to show how the scare can work against our own interests. They may be minor but I believe they are symptomatic of what is happening.

A lesser official in one of the government agencies returns from eastern Europe with important information about one of Russia's satellites. He has acquired knowledge that puts the satellite country in a more favorable light. Feeling the blast of the Red scare, he asks his chief, half humorously, half seriously, "Do you think they'll take me for a Communist over at the State Department when I pass this on?"

Sense Of Insecurity
One of the keen younger men in the State Department is a liberal about whom there has never been (Continued on Page Six)

Just Folks

By EDGAR A. GUEST

THE FIRST YEAR

'Tis known all married folks regard The first twelve months of wedlock hard,
And later, looking back, recall Its difficulties great and small.
Discovering, always much too soon, The waning of the honeymoon
When what was charm and lustrous grace To man and wife turn common-
place.
Then all the little faults below Love's thin veneer begin to show.

A marriage means, as time moves on, Two families must join as one— His folks and hers and every friend That each would keep through life must blend.
And this takes time and conduce wise And willingness to compromise. These tests of love and faith appear To both in that initial year.
But once they're passed, the good Lord may Allow the golden wedding day.

The World and the Mud Puddles

ALWAYS FOR MORE

The Bureaucrats in Washington are constantly alert to the opportunity of establishing another Bureau. Now the effort is being made for a federal educational administration, backed by a huge appropriation of course, to have authority over the public educational facilities of the nation. Some of the proponents are persons who hope to profit by the widespread use of federal money; others are theorists who contend that popular education is a matter for federal control.

In this connection it is not amiss to recall the words of Dr. Nicholas Murray Butler, one of the nation's most renowned educators, when a similar proposal was advanced following the First World War:

Tap U. S. Treasury
"Once more to tap the federal treasury under the guise of aiding the States, and once more to establish an army of bureaucrats in Washington, and another army of inspectors roaming at large throughout the land, will not only fail to accomplish any permanent improvement in the education of our people, but will assist in effecting so great a revolution in our American form of government as one way to endanger its perpetuity."

This is blunt, but true. There are impoverished and backward States which may require some educational funds from the general government; there is no reason, however, why any such aid cannot be administered through local state authorities, with these authorities retaining full control. To place the public educational systems of the entire country under a group of bureaucrats—who might be sympathetic with the ideologies of Communist or Socialist countries—would be a surrender of liberty that no State should tolerate or even consider.

The cry of the times is for less government control and fewer bureaucrats and roving inspectors. To bring the public schools of the nation under the power of a Washington bureau would be a surrender of self-government wholly destructive.

Can He Stop It?

The Parent Problem

By Garry C. Myers, Ph. D.

CHILDREN NEED ABUNDANT LOVE

A tot who eats well, sleeps well, keeps dry all day and night and is happy and cooperative may suddenly or gradually develop all sorts of eating or sleeping or toilet problems or stubbornness, or all of them together.

To illustrate, a mother writes: "This letter concerns my daughter two years old. Up until the birth of my son now seven months old, she was very progressive and self-reliant. She speaks both English and Belgian and understands them equally. Here's my problem: I had her completely trained for toilet habits, in fact she could wait on herself in the bathroom. Now she wets her panties several times a day and just before she wakens (say at 5 a. m.). I have tried every kind of reasoning, ignored it, and even tried spanking. I do raise my voice at her (always have) when I know I shouldn't, but very seldom does it happen. She also wakens crying aloud until I comfort her.

"This is all very recent, Dr. Myers. What do you suggest? She gets an abundance of love from me and her daddy. I am enclosing a self-addressed stamped envelope."

Enclosing my bulletin on "Jealousy" I answered her somewhat like this: Though you say your older child "gets an abundance of love from you and her daddy," almost surely this child does not feel that she does. She needs still more to make up for the loss she senses because you must devote so much time to the baby.

Reveal your love in tenderness of tones, in listening to what she says, in answering all her questions, in reading to her and in appreciation of her efforts at creation. Induce your friends and relatives to do likewise.

Show no anger at her wetting. Go at her re-training as if she never had been trained before. If you do, the gain may be very fast. Be very patient and most generous with deserving praise.

Only Child
Now and then a mother of an only child writes to ask if it were better to have no more children, "seeing that jealousy problems can be so serious." To which I reply that the only child can suffer from even more jealousy—of either parent, of a relative, playmate or schoolmate. Besides the only child lives in ever so many other directions.

Sometimes, too a mother of an only child who gives her trouble wants to know whether it would not make this child better if another child were adopted into the family. In the long run it should, though the immediate effect is likely to be the opposite. A very selfish, uncooperative only child naturally will tend to suffer keenly from jealousy immediately after the adoption of a baby brother or sister. Nevertheless, under skillful guidance, the one-time only child should gain in many ways by and from the need of sharing material things and family affection. It is very hard for an only child to grow up unselfish.

From Me To You

By MESEKALL

A WARNING TO ALL!

The National Farm Safety Week, ends the 27th day of July.
Declared by President Truman, to prevent accidents on the farm:
Too many people have been injured, and scores of them die.
It is bound to do some good, it sure won't do any harm.

They say an ounce of prevention is worth a pound of cure.
You don't have to go to school to know that that is true;
Don't take things for granted, check them over, and be sure,
That is sure to prevent accidents, and save precious lives too.

This warning is not just for farmers, but for city folks as well.
They too are forgetting to obey Safety rules, as you know.
Just how much good this reminder will do, no one can tell,
But just keep on advertising,
Safety First, wherever you go.

Hints On Etiquette

Don't take a great deal of luggage when you are invited to be a house guest. You don't want your hostess to think you are planning to outstay your welcome.

Looking At Life

By Erich Brandeis

A few days ago a well-known psychologist predicted that marriage will soon be obsolete and that in a few years hence men and women will simply live together without the blessings of clergymen or county clerks.

In his opinion matrimony is an antiquated institution and does not fit into the swift, modern way of living, with its accelerated tempo and its much more liberal code of morals.

That, in my opinion, is just a barrel-full of unadulterated hogwash.

Marriage is, always has been, and always will be a fundamental part of civilized existence.

Nobody ever accused Adolf Hitler of having even a vestige of morality.

For many years he lived with Eva Braun in illegitimate union.

But when the jig was up, when he realized that he would very soon have to face his maker—whenever he considered his maker to be—he married his mistress.

When ex-King Carol went gallivanting all over the world with Magda Lupescu, neither he nor she considered marriage of the slightest importance.

But when she was expected to die at any moment, a marriage ceremony was quickly performed and the ex-king's mistress thereby, in her own eyes and, presumably, in those of the world, became an honest woman.

I don't know whether that smart psychologist who predicted the early obsolescence of matrimony is married himself.

I have a strong suspicion he is a bachelor and that he would have the courage to confront his wife with those modern ideas of his.

I would like to hear him say to her:

"We are modern people, darling. Don't let us stay married; it's old-fashioned."

"Let us get a divorce and then just live together as man and mistress. It's so much more up-to-date."

Can't you just see her fly up in the air and, if there is a rolling pin handy, hit him a good whack over the head?

Can't you just hear her ask him whether he has lost his mind?

"How about the children?" I can hear her say. "How about my rights and theirs? How about my reputation? What will prevent you from throwing me out into the street when you are tired of me?"

"But, dear," he might reply meekly, "if nobody gets married any more the laws will be changed accordingly."

"Fiddlesticks," she might say, "you'd better stop dreaming and go to bed."

No dear readers. Marriage will never be obsolete.

Marriage is a tie, no doubt about that.

But it is a tie that holds two people firmly together and gives them security and strength.

It is a tie that resembles the cord which ties a tall flower to the stake and keeps it from breaking.

Marriage will be obsolete when God is obsolete, for marriage is the creation of God.

Good Taste

By FRANCINE MARKEL

WATCH WATCHERS

"Why not give a little call-down to watch watchers who keep peering into the presence of friends, as if they are impatient to leave them? Don't you think this is a rude habit?"

Answer: A famous man whose name escapes me once stated: "People who are always in a hurry are not completely civilized" and I am reminded of these words whenever I am in the presence of chronic watch-watchers.

Offices are full of them—girls who lose all concentration in their work about a quarter hour before lunch or closing time. We find them also at parties—women whose continual check-up on their wristwatches suggests that they are bored and impatient to get away. Of course, when we must break away from one engagement to keep another, there is some excuse for a check-up on the time, but it is in better taste not to make it too obvious than to make the gesture so conspicuous that it may start a general party-breaking movement or otherwise offend the hosts.

For a hostess to consult her watch while entertaining would rudely suggest impatience to have her callers depart unless she should give some excuse as the statement that she must make a telephone call at a certain time or that she wonders why some one who is late has not yet arrived.

Question: What happens to the wedding presents when an engagement is broken and the wedding called off?

Answer: They should be returned to the donors.

Present your problems to Miss Markel who will promptly mail personal replies to questions from readers enclosing stamped, self-addressed envelopes.

Ives Now Seen as Link Between Dewey, Stassen
No International Force To Intervene in Greece
Red Magazine Combs Its Hair

Special to Central Press

WASHINGTON, July 25.—To Freshman Republican Senator, Irving M. Ives, of New York, reportedly has fallen the pre-campaign role of go-between for Gov. Thomas Dewey and Harold E. Stassen.

Ives is said by political observers to have become the latest bridge in the growing campaign for a Dewey-Stassen ticket when the Republicans joust next year to turn President Truman back to pasture in Missouri.

Everything may well be said to be in the formative stage. Dewey and Stassen have met. Stassen has said that, failing in achieving first place on the ticket, he would accept the vice presidential nomination.

Both the New York governor and the former Minnesota governor denied that they talked politics when they met several weeks ago in New York City.

Dewey's first choice as a running mate—and he is now certain he can beat out Senator Robert A. Taft, of Ohio, for the GOP nomination—is still California's Gov. Earl Warren. But Warren is reluctant. Chances are he will stay out of national politics just as he did in Chicago in 1944.

Thus communications between Dewey and Stassen, reportedly the New Yorker's second choice, are presently being transmitted through Ives, avowed Dewey man and GOP Senate "liberal."

INTERNATIONAL BRIGADE—Do not look for any great development of the International Brigade reportedly being formed to aid the Greek guerrillas fight the present United States-supported Greek regime.

Veterans of the old International Brigade which fought Franco in Spain in 1937 are convinced that there is little chance of any substantial new brigade being organized.

They contend that the issues which led to formation of the brigade in Spain are not so tightly drawn this time. Moreover, they believe that the shortage of manpower and tight political issues in most European countries are likely to keep would-be joiners at home.

Another factor against the establishment of a new brigade is travel. For example, anyone in the United States who wanted to fight in Greece would find it difficult to obtain passage.

However, American officials admit that they can do nothing to halt this type of movement if it starts and is encouraged by Yugoslavia. For the present, they are simply not validating passports for Yugoslavia—an admittedly weak measure.

NO FREE SOVIET PROPAGANDA—The Russian government solemnly and officially announces that that segment of the American public desirous of reading and studying Soviet propaganda issued directly from the embassy in Washington is going to have to pay for it.

For some time, the embassy has been issuing an official "Information Bulletin". During the war, this publication was a small four to six page rough paper affair. Occasionally, it contained stuff which made news items. Most of the time it did not.

Then came the end of the fighting and the beginning of the "cold war". The Soviet Bulletin changed its face, enlarged its size and appeared as a "slick" papered publication about the size of weekly news magazines.

It carried glowing stories of life in the U. S. S. R., recounted the glories of Stalin and Lenin, the Soviet philosophers, youth life behind the iron curtain and other propaganda extolling Russia.

The latest issue of the Bulletin, which will be published twice a month and run to 32 pages, contains the startling news that those who want the publication in the future must pay \$2.40 a year or 10 cents a copy.

The announcement concluded: "Owing to circulation limits, it will be sent by subscription only, and will not be sold on newsstands."

No doubt, the subscription list would make interesting reading.

By J. C. Ostreicher, INS Foreign Director

A world confronted by mounting difficulties in far-flung spheres of influence coped today with a means of understanding and then solving the grave situation precipitated by continuance of open hostilities in the Netherlands East Indies.

The first real warfare that has occurred since the United Nations Organization was established either to make conflict impossible or to prosecute those responsible for it posed a strange mix-up of problems.

Thus far, the Security Council has (Continued on Page Six)

Strange Problems
A sorting-out process produced the following:

1—Dutch government troops, supported by naval and air forces, appear to be assuming rapid control of the situation and soon may regain sovereignty over all disaffected areas.

2—The Indonesian Republicans, whom the Dutch accuse of violating terms of a formal agreement providing for definite East Indies independence by January, 1949, are appealing consistently for investigation and intervention by the United Nations Security Council.

3—Netherlands government leaders rule out the possibility of arbitration. They base their stand on the actual wording of the agreement which set forth in cold type the terms of the transition period and allowed for no modification.

4—British Foreign Secretary, Bevin, is openly doubtful as to whether the situation calls for United Nations action—and also as to whether any such steps could be effective.

Veto Use Discussed
Bevin spoke of the use of the veto and its "disappointing aspects with regard to conduct of the world's affairs."

But while he reiterated Britain's willingness and even desire to mediate the conflict, he obviously was unable to present a definite formula of solution at the present. He said quite frankly that it seemed better to wait upon the progress of developments.

This recalled inevitably other crises of the recent past—Soviet interference in Iran, her alleged designs against the Dardanelles and the Turkish provinces of Kars and Ardahan, the Communist coup d'etat in Hungary and even more recently the guerrilla war in Greece.

A STARCHY FELLOW

Fifty years ago it was stylish for a man to wear a stiff shirt front and a high stiff collar.

It took a lot of starch to keep shirts and collars in good shape.

A man who was particular about his linen was called "A Starchy Fellow."

Starch has other uses. It is a valuable food. Potatoes provide starch in abundance. Next to bread they are our chief source of starch.

Starch in the body is like gasoline or coal in an engine. It provides energy. It makes things go.

In the body, it is changed into sugar. Then it is burned up into pep. Potatoes may be baked or boiled or cooked in many ways. They are filling and satisfying. They provide other valuable things besides starch.

The Irish eat potatoes by the ton and have the finest complexion in the world.

Would Keep 1% Social Security Tax On Payrolls

WASHINGTON, July 25.—(INS)—House and Senate conferees reached an agreement Thursday to retain the existing one percent Social Security payroll tax on both employers and employees for another two years.

It was estimated that the action would save employers and employees a total of one billion dollars for each year.

The conferees agreed to permit the tax to rise to one and one-half percent each on employers and employees in 1950 and 1951 and two percent in 1952 and thereafter.

The House and Senate bills had both provided for a one percent freeze for the next two years.

However, the House measure provided that from 1950 through 1956 the tax would be set at one and one-half percent each and in 1957 and thereafter at two percent. The Senate bill provided a three percent tax for 1950 and thereafter.

Under existing law the tax would go to two and one-half percent each on January 1, 1948 and to three percent in 1949 and succeeding years.

Coal Replacing Wood As A Fuel

WILKES-BARRE, Pa., July 25.—(INS)—Wood is slowly being replaced by hard coal as a fuel.

The Anthracite Institute reports that wood has been on the decline since 1941 as a source of fuel. And what wood is losing, anthracite is picking up.

The institute blames this trend on the national employment situation. When employment and income are high the use of wood decreases, when these two factors are low, the opposite is true.

ANOTHER DANGER ON FARMS

—New Castle News Photo

A shocking example of a "don't for Farm Safety Week is this sharp-tined pitchfork protruding, tines upward, over the edge of the wagon. Would you want your son to be in such a perilous position?

Carelessness in use of tools and failure to leave them in proper places often result in injury and death. Pitchforks, shovels, rakes, scythes, and other implements should be stored in their proper place. Not only does that make them less hazardous, but they are much easier to find, and easier to keep in good condition.

Annual Picnic

Large Attendance At Annual Event
At New Wilmington Community Park

Members of the Mahoningtown Presbyterian church and school, journeyed to New Wilmington Community park for their annual picnic on Wednesday afternoon and evening. There was a large attendance.

There were races, sports and amusements for all, under the supervision of the pastor, Rev. H. A. Redmond, Miss Ruth Glenn and Billy Bollinger.

A splendid basket dinner was served, with the pastor pronouncing the invocation.

A couple of teams were chosen from among the group, and a softball game was enjoyed.

The K.J.U. Bible class was the committee in charge of tables. S.C.W. Bible class was in charge of the coffee. Mrs. W. F. McClurg class was the general committee of arrangements, and was in charge of ice cream. Adult Men's Bible class was in charge of transportation.

Sodality Picnics

At Cascade Park

At Cascade Park, members of the Holy Rosary and Sacred Heart sodality gathered for their annual picnic, with about fifty in attendance. Special guests were Rev. Fr. Sebastian Ippolito, Rev. Fr. Walter Karavichus, mother Raymond, sisters Concetta and Clara.

Dinner was served in the grove at 12:30, with Rev. Fr. Karavichus giving the invocation.

Following the repast the group enjoyed games of contest, with prizes being captured by Sister Concetta, Jennie Cenname, Rose Leone, Elizabeth Matteo, Joe Matteo, Mary Razano.

Refreshments were served in the afternoon by president Mrs. Elizabeth Marchionda, and her officers Mrs. Mary Iovanello, Mrs. Theresa DePiero, Mrs. Jennie Rainey, Mrs. Rose Leone, Mrs. Elizabeth Matteo. The president received a lovely gift from the officers, and Mrs. James Zumpella.

Moffatts Back From
10,000 Mile Tour

Mr. and Mrs. Gene Moffatt and children Virjean, Eugene, and Raymond, of 613 North Cedar street, have returned after concluding a seven weeks automobile trip.

Mr. Moffatt, clerking at Mahoningtown post office, was using up his accumulated vacations not taken during the war years. The family toured the states to the West Coast. They hit a severe snowstorm in the Black Hills of South Dakota, then on to Los Vegas and Boulder Dam, and to a temperature of 116 degrees, too hot to drive, and had to wait for the cool of the evening. On Pike's Peak they found about 12 feet of snow, at a height of 14,000 feet. Before returning home they visited in eastern states, including New York City and Coney Island. The trip covered over 10,000 miles, and while on the west coast, they went down from San Francisco to the Mexican border.

Candidate Sunday
At Madison Church

It is announced that Rev. Calvin L. Murphy, of Cincinnati, Ohio, will occupy the pulpit of the Madison Avenue Christian church, on Sunday morning, at 10:45.

Rev. Murphy comes as a candidate for the church pastorate.

MUCH IMPROVED

According to word from his home this morning, Ed McBride, superintendent at Mahoningtown post office, is much improved. Mr. McBride has been off duty ill, for several weeks.

CLOUDS OF DUST

Thursday afternoon we saw one of the residents of South Liberty street, trying to lay the dust with water from a hose. An automobile or bus travelling on the street would raise a cloud of dust. A spraying of used oil on the street would improve the situation materially.

HELPING WITH WASHING

It was washday Thursday in one of the homes on North Liberty street, and a couple of sisters were desirous to give some help: In the afternoon, one of them adopted a novel way of getting the dry clothes off the line. She brought a strong pre-war tricycle under the line, stood up on the seat, and with one hand holding to the line, passed the clothes down to her sister, holding a large clothes basket. But, ere she was half done, the line broke letting her to the ground. After a little cry, she found she was unhurt, and the job was soon finished without any high reaching.

SEVENTH WARD PERSONALS

Rev. Harry Scheidemantle and children Mary Ellen and Beverly of Columbus Grove, Ohio, have returned after visiting for about a week with the former's mother, Mrs. G. H. Scheidemantle and family, of West Madison avenue.

Robert Groce of Buffalo, N. Y., called Thursday on his brother Pete Groce and family, of West Clayton street, having visited relatives in Buffalo, N. Y., and enroute back to his home in Florida.

Miss Mary Peluso of 407 West Clayton street is confined to her home with illness.

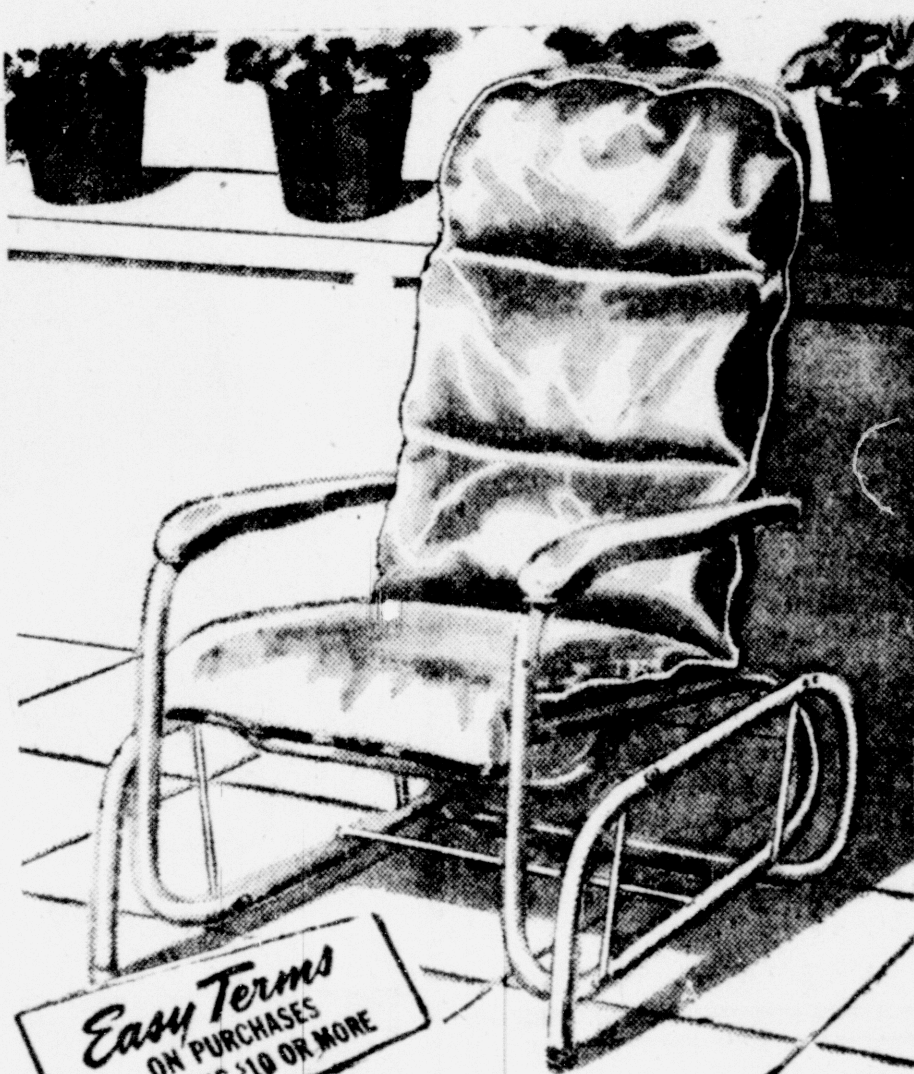

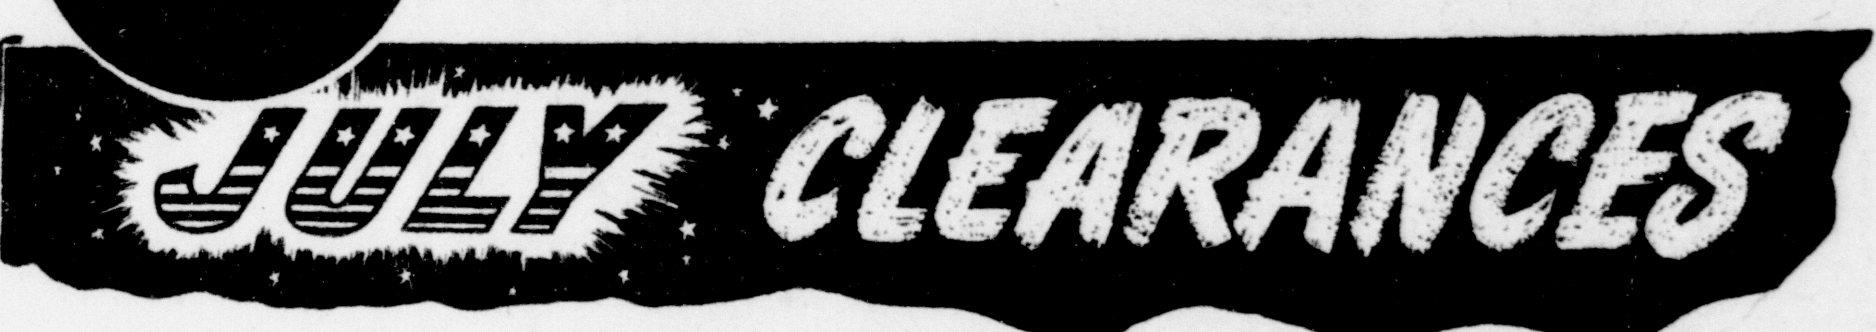

One of the foremost bookbinders of his time Henry III of England, devoted several hours daily to this art. A large skull and bones was designed on the covers of all his books to indicate his grief over the loss of his lady love.

One cubic mile of air from the Gulf of Mexico may contain as much as 40,000 tons of water when it is over, say Iowa.

Summer Session Social Events At Westminster

NEW WILMINGTON, July 25.—A series of social events held during the first six week summer session at Westminster college, reach a climax this week-end with two events planned.

Friday evening, an all-college semi-formal dance will be held in the gymnasium from 9 until 12. Many students from the regular fall and winter terms are expected to return for the event.

A picnic at Presque Isle, Erie, is on the agenda for Saturday. A caravan of about 40 cars will leave

the college at 9 a. m. Saturday destined for the lake resort. There will be a picnic dinner at 12 noon with a program of sports in the afternoon. Dancing will be enjoyed in the evening.

Final examinations for the students are planned for next Thursday and Friday. The second session of summer school opens on August 4.

taken no decisive action in any of the recurring series of troubles. Under strict interpretations of the United Nations Charter, its func-

tions in this respect are limited to situations that actually endanger the peace of the world.

At the present time, apparently, the council is not convinced that there is any such endangerment. In point of fact, a United Nations Balkan investigating commission has been unable to substantiate Greek charges of Albanian or other participation in the recent Greek outbreaks.

Despite all the noise and excitement, the international attitude seems to be: "Let us wait and see." The anthem, a piece sung in alternate parts, is a species of musical composition introduced into the service of the English church after the Reformation and appointed to be sung daily at morning and evening service.

Dale R. Grimm With Occupation Force In Japan

WITH THE EIGHTH ARMY IN OSAKA, Japan, July 25.—Private Dale R. Grimm, son of Mr. and Mrs. Joseph F. Grimm of R. Mullins, Jr., has just returned from a seven day rest leave spent at Hakumuro Hotel, Kanazawa Ken, Honshu, Japan, one of the famous resort centers in this picturesque land.

Pvt. Grimm entered the Army on December 24, 1946 and received his basic training at Fort Meade, Md., Fort Belvoir, Va., and soon after the completion of his training he left for overseas duty and a final assignment with the veteran 25th Infantry division.

Santa Won't Have Any "Atomic" Toys For Kids This Year

PITTSBURGH, July 25.—(INS)—Kiddies who are looking for new atomic and supersonic toys for Christmas better use their imagination.

Displays at a Pittsburgh exhibi-

tion disclosed few really new playthings although one exhibitor confessed today that some of his private stock was being withheld for future unveiling.

Electronics are featured in many of the toys. The ring-a-ton, operating on batteries, plays a song when a handle is pressed in different spots. Also operating from batteries is a magnetic crane mounted on a dump truck.

There's a tricky log loader to work with electric trains.

Among the hand controlled things are a gas station with hydraulic type grease rack, and very realistic looking earth movers and endless chain loaders.

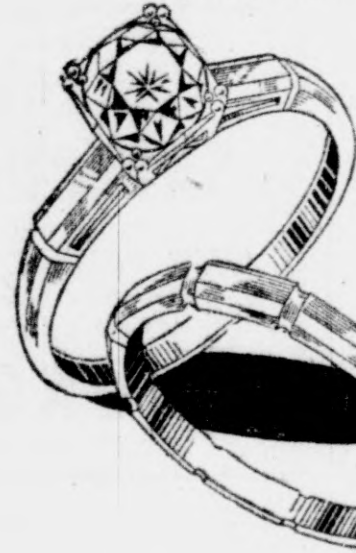

One reason offered for the lack of new items is that many merchants carried over large stocks of toys from last year.

Court House

Summer Slump Noted By County

Activity At Court House Affected By Vacation Period And Other Causes

SOME OFFICES ARE STILL BUSY

Vacation season seems to have affected the court house, with business in most offices falling off as a result.

However, there are three places which are quite busy. The Register and Recorder's office is busy with the recording of deeds and other papers and finds business going along as usual. Then there is the matter of marriages in the Prothonotary's office, with business just as brisk as ever. Youth must be served, an old adage states, and it seems to be the case here, as there are still quite a number of youngsters getting married these days. In one day recently, three couples applied for licenses and all were under 21 years of age, with two of the couples being around 17 years of age.

Judge Lamoree is on vacation and a number of the lawyers are also, so this naturally affects the number of cases being filed in court. The county treasurer is picking up the lag end of the taxes that people are paying to get in under the line, before penalties are added, but on the whole business is just a little slower than usual.

DRIVER IS FINED

Frank T. Smokowitz, charged with operating a motor vehicle while under the influence of intoxicating liquor, was before the court Thursday, and drew the usual sentence, \$100 and costs, and 30 days in jail, with the sentence being committed to three days on payment of the fine.

TWO SEEK DIVORCES

Two divorce applications were filed with Prothonotary John E. Edgar Thursday.

Milton H. Rogovin, of 1105 Agnew street, seeks a divorce from Rhoda Effith Rogovin, of 133 Hazen Place, Sharon, charging indignities. The couple was married in Sharon, March 16, 1947.

Rita Marie Straniak of R. D. 8, Morris street, seeks a divorce from George Paul Straniak of 31 West Terrace avenue, charging indignities and cruel and barbarous treatment. They were married at Wellsburg, W. Va., December 11, 1941.

MARRIAGE LICENSE APPLICATIONS

King Upton Scott, 506 N. Water street, Kittanning, Pa.; Marian Louise Gilhousen, 31 Zentz avenue, Youngstown, O.

France has four important rivers, the Seine, the Loire, the Garonne and the Rhone, the left bank of the Rhine from Basle, Switzerland, to Lauterbourg, and a dozen others. They are all of great value because of canalization. The waterways total 7,543 miles in length, of which canals cover 3,031.

Supposed victims are Dale Henry, 29, and Willard Hofmaster, 30, both unmarried. Henry, a World War 2 veteran, was a market clerk here. Hofmaster, associated with his father, Edward, was preparing to open a lumber yard.

Henry's car was found near the lake, after cries for help were heard. Charles Burlington, a camper, told searchers. The lake, a popular fishing and camping spot, is owned by the City of Youngstown.

New Regulations Affect Recruiting Of Marine Corps

Young Men Over 18 Years Of Age
May Enlist Without Parents
Written Consent Now

T-Sgt. Lawrence H. Edder of the New Castle Marine recruiting office announced today that the following changes governing enlistment in the U. S. Marines are now in effect:

(a) Commencing July 21, 1947, men between the ages of 18 and 21 may enlist without obtaining the written consent of parents or guardian.

(b) Men who held a rank in the second, third, fourth, fifth or sixth pay grades at the time of discharge, who reenlist in the regular marine

corps within a period of ninety (90) days from the date of discharge, will be reappointed to the same rank with same date of rank held at discharge. The foregoing applies to Marine Corps discharges only.

(c) Men with dependents who upon enlistment or reenlistment are authorized appointment or reappointment to a rank of sergeant or above may enlist or reenlist in the regular Marine Corps.

VETERANS' PRIORITY

CHICAGO — (INS) — Eighty-five cities last year adopted plans giving veterans priority in getting city jobs. At least 559 cities of over ten thousand population now have such plans in operation, according to the International City Managers' Association. A survey conducted for the 1947 Municipal Yearbook reveals that larger cities generally have more definite veterans preference policies than smaller cities, and that disabled veterans in many cases are given additional preference.

Garden Notes

Break up old clumps of creeping phlox in the rock garden and thin out plants which have grown too rampantly. This work needs to be done frequently, for phlox spreads rapidly.

The Virginia bluebell, *Mertensia virginica*, can be divided and moved at this season as their roots are practically dormant.

After a crop is removed from an area of garden, keep the weeds out for the remainder of the season. Left to seed, they increase your troubles next year.

Place short pieces of boards under muskmelons and watermelons to keep wire worms from working into them.

When dividing perennials, replant only vigorous growth from the outer edges of the old clumps.

Powdered sulphur will dispel mildew on phlox. Dust twice a week early in the morning.

The largest meteorite ever found weighed 36½ tons.

Miss Alice Sterling Returns From Coast

Attends Conference Of American
Library Association In San
Francisco, Cal.

Miss Alice Sterling, librarian at the main branch of the free public library, has returned from California where she spent a vacation of one month.

While in California she represented New Castle at the conference of the American Library Association which was held in San Francisco during the week of June 29 through July 5. She was registered at the Drake-Wiltshire hotel with Mrs. John F. Cargill, who attended the convention from Pittsburgh.

Following the conference Miss Sterling enjoyed seeing a number of former residents of New Castle who are now living in California.

After spending a week at Santa Cruz, a beautiful little resort town on the Pacific, she went to Los Angeles and spent a day with Miss Sarah Mervis, former librarian of the junior department of the local public library. The latter is now working with the children's department of the Van Nuys branch of the Los Angeles county library. They had dinner with Joseph Moore, formerly in the interior decorating business here and now in the furniture and decorating business in Los Angeles. Both of these former residents are doing well in California.

Eight days were spent in Tucson, Ariz., when she visited with a former high school teacher of New Castle and Pittsburgh Miss Rose Stewart. She also met Mrs. Ethelene Prouditt, who was a teacher in the schools of Pittsburgh. The three were college friends at Grove City college.

**MAKE REPORT OF
BUS LINE HEARING**

When council met Thursday in city hall, Public Improvements Director James Gibson offered a motion to approve an ordinance calling for the paving of Taylor street, between Neal and South Mill streets. His motion passed.

J. Clyde Gilfillan presented a request to council asking that approval be granted for the connection of lots he owns on the east side of Highland avenue, at Northview avenue, with the city sewer system. Council took the matter under consideration.

Council had formerly refused permission, believing such would overcrowd the sanitary sewer system. However, the opinion of the Lawrence county court, authorizing the connection, was upheld by superior court. Mr. Gilfillan was asked to submit a plan of a sewer now in the lots.

Director of property Joseph D. Alexander reported he had made in behalf of the city, an agreement whereby ground owned by the Malizia brothers, in Hawthorne street, could be used as a "turn table" by buses. An ordinance to this effect was presented by Mr. Alexander.

Council also voted in favor of a motion by D. O. Davies, safety director, authorizing the installation of a 250 candlepower light there.

The legal department was authorized to prepare an ordinance condemning a sewer, built by the federal government, in view of the city planning to build a sanitary sewer in Vogan street between Wilson and Jackson avenue.

Because of insufficient signers, a petition, which asked for the paving of Erie avenue, was ordered returned to petitioners. Sixty one and a half percent in property interest signed as did 60 percent of properties concerned. As it is a "cash on the line" proposal, this was not considered sufficient. According to the city engineer, he estimated the cost of paving and curb at least at \$5.65.

James Gibson, director of public improvements, during council session, reported the attendance of Mayor John F. Haven, and other councilmen, and also S. V. T. company bus officials at the PUC hearing Wednesday, at Beaver. He reported the city officials and also the bus company officials were in favor of a continuance of extended service here which has proved beneficial to patrons.

First Test Of New State Law

BUTLER, Pa., July 25.—(INS)—A Detroit truck driver was committed to the Butler county jail today in the first test in western Pennsylvania of the new state embargo on importing untaxed cigarettes.

Alderman John D. Clark fined Robert C. Davis \$75 for having 600 untaxed cigarettes in his possession, they were found after Davis' truck

was stopped by police between Kittanning and Butler.

Davis, police said, purchased the cigarettes in Trenton, N. J., for his own use.

Davis also was arraigned on charges of violating the uniform firearms act when two guns were found in the cab of his truck.

The trucker may spend 85 days in jail for non-payment of the fine.

Communists In France Are Now Weaker

**News Correspondent, Re-
turning From France,
Gives Report On
Situation**

NEW YORK, July 25.—(INS)—Leon Pearson, International News Service foreign correspondent, said Thursday on his return from France that the most significant change which has taken place in that country in the past two years is the weakened position of the Communist party.

Pearson, who arrived on the United States liner America, recalled that when he first went to Paris in July, 1945, he asked American Ambassador Jefferson Caffery to explain the United States' basic policy toward France.

Caffery told him it was to preserve French independence, and indicated the chief threat was from Communism.

Last week, Pearson said, he called on Caffery to say goodbye and asked him:

"How do things look now, on that score?"

Weakened Considerably

Caffery replied that the position of the French Communist party has been weakened substantially, particularly in the last six months.

Pearson said that in his own opinion, this change is due to two factors.

The first is the Communist position with regard to the French empire.

"Last March," he explained, "the French Communists opposed the appropriations to put down revolts in Indo-China and Madagascar. That was unpopular for all Frenchmen love the empire."

The second factor is the Marshall plan for aid to Europe. Communist opposition to this also was unpopular, Pearson said. "For the Frenchmen loves his bread and he won't turn down aid from the United States."

He added the Communist party still is the largest party in France, but it is losing members and aggressiveness.

Pearson expressed the opinion that the United States is far too worried about Soviet influence in western Europe.

Pearson said there is less talk in Europe than in the United States about the possibility of another war.

Nevertheless, he added, Europeans are greatly worried about what they regard as the aggressive policies of both the United States and Soviet Russia.

**SUDS SHAMPOO FOR DINGY
UMBRELLA**

A dingy or spotted fabric umbrella may be cleaned successfully at home. Of course, an umbrella won't keep its good looks very long if it is knocked about the floor of a closet or automobile.

Here are some suggestions for cleaning an umbrella. Open the umbrella and brush the fabric with a clothes brush to remove loose dust or dry mud. Sponge any spots that look like grease with a cleaning fluid.

The bathtub is a convenient place to shampoo an umbrella. Make thick suds of lukewarm water and mild soap, then with the open umbrella over the tub go over the outside with a soft brush dipped in the suds. Give special attention to the center fold of each section of the umbrella where the fabric usually shows the most soil. Handle and wash gently to avoid strain on the stretched fabric.

An easy way to rinse the fabric after the sudsing is to hold the umbrella under a spray of lukewarm water from the shower. Where there is no shower or spray attachment, pouring lukewarm water from a dipper or pail will do just as well. Leave the umbrella open and stretched to dry.

After using an umbrella always shake it out well, leave open until dry, then fold and hang where it won't be knocked down. An umbrella that is folded up when damp is likely to mildew in warm humid weather.

A mortar vessel was a ship fitted for carrying and operating a mortar. During the Civil War schooners were used as mortar vessels. Mortars are no longer used, high-angle fire being obtained from longer guns, rendering mortar vessels obsolete.

NO BREW—NO MOO
NEW YORK—(INS)—Milkman Charles See hopped off his Sheffield Farms company truck recently and walked around to the back of a New York home with the regular order: three quarts—homogenized. He saw a scrap of paper stuffed in the top of an empty bottle on the porch and fished it out. The note read: "No milk until further notice! Some of my neighbors caught a whiff of the mash. The revenues came and found my still. Gone to jail!"

It cost \$100 in early-day America to haul a ton of goods by wagon from New York to Buffalo.

Java is an important source of tea, coffee, chinchona bark and quinine.

In Accadian (the language of the early inhabitants of Babylonia and Media), the word 'magi' signified august, reverend, and was the title of their learned and priestly caste. Under the Persian empire the magi were the keepers of the sacred things, augurs and astrologers. The name was also used for astrologers in the East, as in the New Testament narrative of the homage of the Magi to the Infant Christ.

Tifereth Israel Special Services

Special Services Observed Expressing Hope-Comfort For Those Of Jewish Faith

This year Tisha B'ab commences at sunset on Saturday, July 26, at Tifereth Israel synagogue, and ends at sunset on Sunday, July 27.

Tisha B'ab, the ninth day in the Hebrew month of Ab, is observed as a fast day. It marks the anniversary of the destruction of the first and second Temples in Jerusalem by the Babylonians under Nebuchadnezzar, and the Romans under Titus, and also the loss of Jewish independence.

At a time when most of European Jewry has been marked down for destruction, when unprecedented torture and massacre are the lot of millions of the Jewish people, Tisha B'ab summons us to consider the historic tragedy of Jewry through its dispersion. Just as in memory of the ancient sorrows of Israel on Tisha B'ab, the story of agony and martyrdom is relieved, but nevertheless they rise up to the note of comfort and hope. So today, Tisha B'ab summons those

of the Jewish faith, to a heart-rending survey of the present-lot of the Jews, and a dedication to build up on the ruins a future of comfort and hope.

Services at Tifereth Israel synagogue will be conducted by Rabbi Hyman Krash, on Saturday evening, at 8 o'clock; and Sunday morning at 8 o'clock.

CHICAGO, July 25.—(INS)—Two University of Georgia backs with first names of Charley joined the College All-Star squad today.

One of them was the famous Charley Trippi who will play with the Chicago Cardinals in the National football league this fall.

The other was Charley "Rabbit" Smith, who might have become as famous as Trippi if the first Charley hadn't been around.

Job Hunting Discussed By Babson This Week

By ROGER W. BABSON
(Copyright, 1947, Publishers Financial Bureau, Inc.)
GLOUCESTER, Mass., July 25.—With a possible 10,000,000 unemployed by 1952 unless labor regulations are straightened out, both schools and parents should begin now to make graduates worth employing. Certainly there will be keen competition for whatever jobs there may be. Young people now in high schools should make up their minds to put work before play and cut out the social stuff which is making too many of them useful only for driving trucks and jerking sodas.

Simple Economics
Business expects the schools to equip our men and women with an adequate background of the historical, psychological and economic forces which have produced our nation. Our young people should also be given a background of the many "isms". With such a background students should understand the merits and benefits which our free society has to offer. However, the school cannot do much unless backed up by sensible table talk and religious instruction at home.

No nation can prosper without the proper incentive, progress and efficiency. This causes a continuous improvement in the standard of living and security for all producers. When people produce more, business thrives, national income increases, standards of living rise and our voters are happier. It is the understanding of these basic factors including some real religion, which our homes and schools should teach. These include emphasis on that simple economic fact that only as we all produce is there more to divide.

Schools Shortchanging Pupils
Schools today are shortchanging pupils. Youngsters are being shorted out into an ever increasingly competitive world with inadequate training in the fundamentals of reading, writing, spelling, arithmetic, self-expression, etc. Too many of our young people knocking on

the employment manager's door are unable to do relatively simple mathematical tasks. These are basic tools of work, rather than the useless frills which schools now teach. It is not the accumulation of vast amounts of factual material that makes a young person employable. Rather it is his character, his health, his desire to be of service and his ability to work with others. Schools are shortchanging students by their failure to teach how to work and live, how to get and hold good jobs. Schools should spend much more time in both group and individual counseling to help students better understand themselves, their interests and their aptitudes.

Schools Shortchanging Vocationally
With 29,744 different jobs listed in the Dictionary of Occupational Titles, schools of this Atomic Age should offer systematic courses in vocational information, get their students out on field trips, make greater use of occupational films, part-time job experiences, etc. Most important of all, young people should be taught the dignity of working and the disgrace of loafing.

To teachers, I say: "Get to know your student more than from just grades." Prepare him for job interviews. Make sure a student understands his own balance sheet of assets and liabilities. Teach him how to sell himself on the interview. Schools should have students realize that personal qualifications such as incentive, resourcefulness, adaptability and willingness to assume responsibility are more important than joining a union to assure success.

Parents Should Wake Up
But the best training of all for getting a good position after graduation is to work summers. Whether or not your boy and girl does this is up to you—and not to any teacher. In some states boys and girls must get the okay of the superintendent of schools, but this always is obtainable if you as a parent request it. Parents who let their children run around or loaf all summer are committing a crime against them.

Too many parents hate to make their dear Susie and Johnnie get a job because their friends do not. Instead of being content to listen to speeches, parent-teacher associations should urge parents to refuse to give spending money or loan the car to kids who loaf summers or who fail in their studies. It is not now too late for parents to get tough this summer.

SERVICE STATIONS ASSOCIATION TO MEET TONIGHT
Lawrence County Service Stations Association will hold a general meeting at 8 o'clock tonight, at 1004 North Jefferson street. Officers and directors will meet one hour earlier to arrange for the distribution of new organization materials among the members.

A number of recommendations from the Directors will be placed before the membership for action. A new rural dealer policy will be outlined.

Plane Fuselage Makes "Cottage" For Home Hunters

C-47 Cargo Planes, Reclaimed For Parts, Offered At Middletown Base.

MIDDLETOWN, Pa., July 25.—(INS)—Something new in housing is being offered by the Middletown Air Materiel area in placing on sale an all-aluminum "cottage" large enough for four rooms. This solution to somebody's summer pleasure or housing problem is offered in the form of a C-47 airplane fuselage which will be sold to the highest bidder at the sale of surplus materiel now in progress at Olmsted Field, Middletown Air Materiel Area, Col. David R. Stinson, M.A.M.A. commander announced.

Once assigned for cargo duty at Olmsted Field, the plane, A.A.F. counterpart of the commercially used DC-3, has been reclaimed for component parts. The fuselage comes complete with doors and windows. Other items offered in the same sale are various types of office equipment, including filing cabinets, flat top wood and metal tables, chairs, stools, cosumers and septicities. Some 25 waterproof duck tarpaulins, 30x50 foot, and ample quantities of mechanics winter jackets, trousers, and shoes, non-repairable for further army use, are also available together with 200 canvas bags

with zipper fastenings, and 26 cotton-filled comforters. Above material and other items may be inspected daily until July 23 when bids will be opened at the office of the contracting officer.

HOME PLANNING
TRENTON, N. J.—(INS)—Backed by 41 million dollars in state funds, New Jersey cities currently are building or planning six thousand homes for veterans, according to the National Association of Housing Officials. At least 149 cities are participating in the program which is one of the biggest of the six state-aid housing plans now in operation. Allocation of state funds is based on a formula providing 10 dollars per capita for each municipality requesting aid.

Upholds Demand Of 30-Year Term For Young Dancer

HAVANA, July 25.—(INS)—A demand by the prosecutor of Havana's Court of Appeals that Patricia Schmidt, nightclub dancer of Toledo, O., be sentenced to 30 years of imprisonment for the slaying of her lover, Chicago Attorney John Lester Mee, was supported Thursday by a private prosecutor for Mee's family.

The private attorney, Gustavo Reno, upped the recommendation of the court prosecutor that the dancer, who appeared under the name of

Satira, be required to pay \$5,000 and costs.

Reno, on behalf of Dr. Lester E. Mee and Mary Dixon Mee, asked payment of \$15,000 as compensation to Mee's father and widow and an additional \$5,000 to pay for medical expenses and costs.

The younger Mee died as the result of a gun wound in the neck received aboard his yacht in Havana Harbor last April. The dancer admits firing the shot following an argument with Mee.

Reno also demanded that Charles Jackson, of River Forest, Ill., companion of Mee who is under arrest for concealment of facts, be given a six-year sentence. The Havana prosecutor recommended that Jackson be given his liberty but stipulated that he must appear when the case is brought to trial.

Disclose Special Weapons Project For Atomic Types

WASHINGTON, July 25.—The War and Navy departments Thursday announced the establishment of the armed forces special weapons project for development of all types of atomic weapons.

The project will be headed by Maj. Gen. Leslie R. Groves, who headed the military participation in development of the atomic bomb. His deputy is Rear Adm. William S. Parsons, director of atomic defense for the navy.

The announcement said that the project "has assumed the responsibility of carrying on those military

service functions of the Manhattan project which were retained under control of the armed forces at the time of turnover of the Manhattan project to the atomic energy commission."

It added that the program "includes training of special personnel, military participation in the development of atomic weapons of all types, and developing and effecting joint radiological safety measures in coordination with established agencies."

The principal field installation of the special weapons project is Sandia base, near Albuquerque, New Mexico.

Jay-Bees Finally Defeat Claridge, Nemacolin Victors

Johnson Bronze Wins In 12th Inning Of Replay, 8-7; John Razzano Drives In Run

Nemacolin Edges Tarentum 2 To 1 With Dick Clark Loser In Heart Break

National Baseball Congress state tournament fans had visions of a midnight snack at P. J. Flaherty field last night when John Razzano poked a long fly to left field in the last of the 12th inning to give the Johnson Bronze Jay-Bees an 8 to 7 sensational win over the scrappy Claridge, Pa., team in a replay of the 1-inning game of last Saturday. In the opening game last night Nemacolin defeated Tarentum in a thriller 2 to 1.

A crowd of 500 fans sat in chilly July weather again for the double-header and saw all kinds of baseball also thrills and chills as the teams fought for the victories that kept them in the running for the state NBC title. They saw, too, young 19-year-old Dick Clark of the Tarentum Swirlings pitch his heart out with a blazing fast ball, only to lose on an error by Lou Helles, star first sacker.

Fast Games Tonight
Fans will return to the Flaherty field tonight for two great games in the tourney, the first game at 7 o'clock will pit the Derry Vets against the tourney "dark-horse" Wilkes-Barre team that slammed the daylight out of Smock on Wednesday evening 15 to 0. Derry, with Frank Jones, 16 years old, on the mound, edged Scottdale last Saturday night 4 to 3 in a thriller. The easterners are highly confident of winning tonight. From the Derry entry, and will be at their best. Wilkes-Barre has a heavy hitting club and may come back with their Zwick, their ace, tonight, with Derry also counting on their ace, Jones, to pitch them to their second tourney win. This is a second round game in the tourney.

"Grudge Battle"
The nightcap this evening will be a "grudge battle" between Ford City's Glassworkers and the Duquesne Steels. This game was rained out Monday evening. Both teams have strong attacks. The Duquesne Zemps will have the edge tonight with a great pitching staff headed by Johnny Chir and Alec Medich, either of whom are big league prospects. The game is one of the highlights in the tourney due to the "grudge" complexion. Both have great records to date.

Error Does It
Tarentum Swirlings had a great ball club on the field last night, and one of the best pitchers in the tourney to date, young 19-year-old Dick Clark, but an error by Lou Helles, the first baseman, let in two runs and that was it—Nemacolin 2, Tarentum 1—in a sizzler. Clark fanned nine batters "with a blazing fast one and deserved a better fate. Tarentum had men on second and third in the first inning and young

tally, sending a shivering crowd home with midnight napping. Heavy hitters in the Claridge lineup were Reeves, the pitcher, with a pair of doubles; Watts and Smith, also with doubles. Magusiak had the only Jay-Bee extra-base sack, a triple.

Manager Mike Duffley of the Bronze had a patched up infield last night with Mosley suffering a sore arm. Tony Razzano moved to third and did a bangup job, with Jimmy Tropea going to second for the first time in the Jay-Bee lineup and handling the job like a veteran. The fans saw plenty of sparkling plays on both sides last night. There were only four errors made, two by each team.

Sportsmen To Shoot Saturday

Ken Beegle, One Of World's Best Marksmen To Demonstrate Ability

Everything is in readiness for the trap and skeet shoot to be held Saturday afternoon and evening at the farm of the Lawrence County Sportsman's association near the Harbor. Lights for night shooting have been installed and all the traps are ready.

Ken Beegle, one of the world's greatest marksmen, who is a representative of an arms company, will be present Saturday to demonstrate his ability in marksmanship.

CHAMP BELL TO BOX FITTIPALDO

Al Micatrotte, Cleveland Heavyweight Hopes To Knock Out Brothers

With the Arena tistic enterprise out of the way, Johnson Bronze Employees Association pugilistic promoters, are looking forward to another big crowd when World's Bantamweight Champion Bobby Bell tangles with Junior Featherweight Champion Ted Fittipaldo at P. J. Flaherty field, either August 7 or 8, the exact date to be yet named.

Ted demonstrated his ability when he boxed the heavier Eddie Marotta, world's featherweight champion several weeks ago. In fact, the fight was so close the judges split on their verdict, and the referee had to cast his vote to give the nod to Marotta.

Bell is a member of the famous Fighting Belles of Youngstown, and actually is one of the most popular fighters in the amateur world. After he won his crown in Chicago, he went to Honolulu where he defeated the Hawaiian champion.

Tough Fight For Brothers
He has fought 'em all, including Leo Kelly, the 126 pound A.A.U. champion, Chester Hoover, Golden Gloves champion and to win the world's championship in Chicago, he defeated the European champion, Lesio Bogazs of Hungary.

Elkins Brothers has a tough fight ahead of him when he boxes Al Micatrotte of Cleveland, who is a university graduate. Micatrotte believes his body punches will weaken Brothers after which a crashing left on the jaw will tumble Brothers into a knockout.

There is a lot of interest in the proposed return fight between Lionel LaGrew and Chuck Gibbons. Gibbons agreed to a return match but said Monday Gibbons might not fight him. The fans want to see this fight and it is hoped Gibbons accepts the chance.

There will be five other bouts.

Noted Marksman To Give Showing

Ken Beegle, One Of County's Ace Marksmen, Will Put On Exhibition Next Week

"Folks who like to shoot also like to watch the other fellow shoot," says Ken Beegle, internationally famous marksman, who will give a demonstration of his remarkable ability at the Ellwood-Wampum Rod and Gun Club, on the Ellwood City-Wampum road, Wednesday afternoon, July 30, at 4 p. m.

Mr. Beegle and his wife, Blanche, make up one of the greatest shooting teams in the country. During the war, they toured the country, appearing before millions of G.I.s at many army camps and naval bases.

Proper timing is the essence of all shooting at moving targets, Mr. Beegle asserts. Once the shooter learns to make the gun practically a part of himself, learning to shoot with efficiency becomes comparatively easy.

Mr. Beegle assists her noted husband in all of his exhibitions. She is an accomplished sportswoman and loves all phases of outdoor life.

Universals Rack Up 20th Straight Win

"SMED" PYLE HURLS GREAT TWO-HITTER

"Smed" Pyle, the West Side pitcher, racked up a swell two-hitter last night in a "grudge battle" at the Scotland Lane field as his mates, the West Side Tigers, batted out a 2 to 1 win over the Union Civics. Jay Thomas, Rote and Kearns did the heaviest hitting for the winners, the winning runs coming in the first inning on a sustained attack, and after that Hinkle tightened up and no more Tiger players got home. It was a triple by "Mick" Kearns that won the game.

Pyle fanned seven batters and Hinkle three. It was a fine game in the city league and drew a large crowd to the Scotland Lane field. It was the 10th straight for the rampaging Tigers out of the last 11 games played. Pyle faced only 23 men.

Dukes Defeat Sons of Italy 9 to 7, Tie For First-Half Title

A capacity crowd at the Cascade Street Field last night saw the Duca D'Abruzzis team managed by the popular Jimmy Valentino, defeat the Sons of Italy, in a replay of a recent game in the first half by a score of 9 to 7 and thereby deadlock the two teams for first-half honors in the softball league necessitating a playoff game.

Roger Maggie pitched the Dukes to their win as the Dukes lambasted Tony Capp off the mound in the first inning and Liposky finished. Pia was the heavy batsman for the winners, while Di Muccio featured the game by slamming a long homer, for the Sons of Italy.

The playoff date will be arranged by the league officials for a later date, Manager Valentino reported.

The Sons of Italy took the lead in the first inning by scoring two, the Pottery tied it up in the third and they battled toe and nail until the last of the seventh. Heavy hitting was done by Pete Razzano, J. Gennock and Stevie Hutnick, who returned to the lineup after being out with injuries. Sammy Janacota reported that some sneak thief had made off with his glove following the game.

VALLEY TEAM IS STRONG ONE

Defeat Giants In Tenth
Thursday 3-2, Dodgers
Win From Reds,
Bucs Win Two

By LES CONKLIN

(International News Service Sports Writer)

NEW YORK, July 25.—The long-

awaited death struggle between the

world's champion St. Louis Cardinals

and Brooklyn Dodgers is

shaping up slowly but surely, de-

spite Brooklyn's apparently healthy

lead and six-game winning streak.

St. Louis is winning the close

ones now, and that always has been

the mark of a pennant winner. The

champs nosed out the Giants in the

tenth yesterday, 3 to 2, on Stan

Musial's single.

Vic Lombardi beat the Reds for

Brooklyn, 6 to 1. Pee-wee Reese led

the attack on Johnny Vander Meer

with three hits.

Warren Spahn of the Braves

didn't know what to throw to Cliff

Aberson, a rookie outfielder whose

two triples sparked the Chicago

Cubs to a 6 to 4 win over Boston.

Pittsburgh took seventh place

away from Philadelphia by beating

the Phils twice, 8 to 6 and 3 to 2.

Ted Williams of the Boston Red

Sox and Jeff Heath of the St. Louis

Browns are doing yeoman

work these days in their efforts to

restore the American League's home

run leadership over the National.

Williams got one as Denny Gale-

house beat the Chicago White Sox,

3 to 2.

Heath hit two against New York

but they were lost in the shuffle

as the Yankees compiled a seasonal

high of 20 baseballs in slaughtering

the tail-enders 14 to 5.

Rapid Robert Feller became the

first American League pitcher to win

12 games this year by holding the

Athletics to five hits and beating

them 6 to 1, but will have to keep

going strong if he hopes to win 20

this year.

Charles Boxes Ray Tonight

Winner May Be Given Chance
To Box Champion Joe
Louis

NEW YORK, July 25.—(INS)—Ezard Charles, Cincinnati light-heavyweight, and Elmer (Violent) Ray clash in an important ten-round bout at Madison Square Garden tonight.

The winner, if he scores an impressive triumph, will be granted the doubtful privilege of tangling with heavyweight champion Joe Louis on Nov. 19.

The Louis bout will be a non-title engagement, but Joe's opponent could win the championship via a knockout—and both Ray and Charles pack a punch Ray has won 34 fights in 55 starts, and virtually all have been knockouts. Charles has stashed such good fighters as Jimmy Bivins and Lloyd Marshall. Charles is favored over Ray at 8 to 5, although he will be spotting his rival no less than 24 pounds.

It will be the first Garden showing for Charles, after seven years in the professional arena.

State College To "Farm Out" Its Freshmen

Class of 3,100 Will Study At 24
Cooperating Institutions
This Fall

STATE COLLEGE, July 25.—The Pennsylvania State College's 3100 freshmen will be "farmed out" to a total of 24 cooperating institutions during the coming school year, it was officially announced today. Last year, the off-campus centers numbered 22.

The new additions are Dickinson Junior College, at Williamsport, which has since been converted to a four-year college, and the newly established Penn State center on the campus of Swarthmore College. The latter will accommodate 200 Philadelphia area students.

Of the 1628 freshmen "farmed out" last year to state teachers colleges and other off-campus centers, 1324 or 81 per cent have gained admission to the sophomore class on the Penn State campus. More than 1200 other "farmed out" freshmen will remain at the college's four undergraduate centers for their second year.

Undergraduate Centers
The college maintains undergraduate centers at DuBois, Altoona, Pottsville, and Hazleton, where students are enrolled for two years instead of one. Approximately 120 forestry students who spend their first year at Mont Alto branch of the Pennsylvania State Forestry School also will come to the main campus for their sophomore year.

Temporary housing units will enable college officials to admit an additional 1000 students to the campus this fall, boosting the total campus enrollment to a record 8500. The total enrollment, on and off campus, will exceed 11,000, of which an estimated 60-65 per cent will be war veterans attending college under the educational provisions of the GI Bill of Rights.

State teachers colleges expected to cooperate in the program again this year are Bloomsburg, California, Cheyney, Clarion, East Stroudsburg, Edinboro, Indiana, Kutztown, Lock Haven, Mansfield, Millersville, Shippensburg, and Slippery Rock. Other cooperating institutions are Gannon College at Erie, Keystone College at Scranton, St. Francis College at Loretto, and York Institute at York.

Former Members Of 29th Division Will Form Posts

Former members of the fighting units of the 29th Division are asked to get in touch with the national vice-commander, B. A. Goldsmith, 731 Copeland Street, Pittsburgh to form posts in their respective cities. National convention will be held in Asbury Park, N. J., October 11 and 12 and there will be a meeting in Pittsburgh of the various units during the American Legion State convention in August.

For details get in touch with Vice-commander Goldsmith or Pittsburgh post 76, Soldiers and Sailors Hall, Pittsburgh.

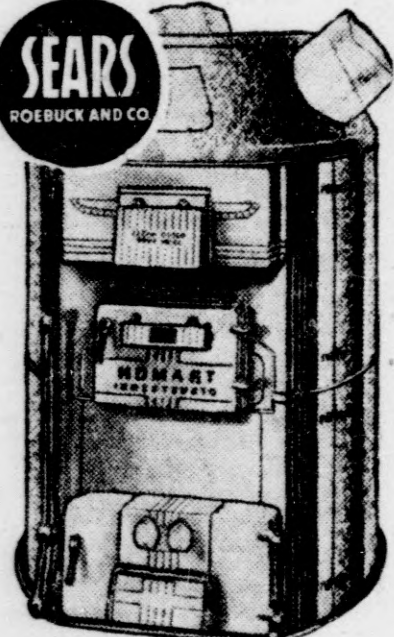

The Galapagos islands are included in the area of Ecuador, South America, and have an area of 3,028 miles.
